

Course Development Award Guidelines

The course development fund that is collected from every player at each stop, this fee is \$2. This money is made available for major upgrades on existing courses or installations of new courses here in the state. We also consider deserving projects for any disc sports. To get this award, the requester must formally make the request in writing by November 1st to any Wis. Disc board member detailing the project and progress on fund raising. Decisions on the requests will be made at our end of the year meeting. All golfers in the state benefit from this fund, both touring players and recreational. As the tour grows, we hope to increase the project awards in the future, hopefully. Keep participating and watching the number of courses increase because you support disc sports here in Wisconsin!
